John, Martha & Mary, 1973. Rogers.

1. The first part of the document is a list of names and dates, which appears to be a roster or a list of participants. The names are written in a cursive script, and the dates are written in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

 BUREAU OF THE CENSUS

Hitchcock, Rebecca

10.7

1120

Figure 1 displays eight line drawings of a rat's head, arranged in two rows of four. The top row shows the head from the front-left, front-right, back-left, and back-right perspectives. The bottom row shows the head from the front-left, front-right, back-left, and back-right perspectives, with the rat's mouth open, revealing the tongue and teeth.

1914-1915

1. The first group of people who are interested in the study of the history of the world are the historians. They are people who study the past and write about it. They are interested in the events that have shaped the world and the people who have lived in it. They are interested in the lives of the great men and women of the past and the lives of the ordinary people. They are interested in the wars and the peace, the triumphs and the failures. They are interested in the things that have made the world what it is today.

July 24th 1891

1. The first part of the document is a list of names and dates, which appears to be a record of some kind. The names are written in a cursive script, and the dates are in a more formal, printed style. The list is organized into two columns, with names on the left and dates on the right.

LINE:

1990

1. *Chlorophyll a* (Chl a) and *Chlorophyll b* (Chl b) are the two main photosynthetic pigments in green plants. They are responsible for capturing light energy and converting it into chemical energy through the process of photosynthesis. Chl a is the primary pigment, while Chl b acts as an accessory pigment, transferring energy to Chl a.
